

SIXTH FORM SUBJECT PREFERENCES 2017-2019

Name

To help us establish a flexible subject blocking we would like you to indicate, the subjects that you may wish to study in the sixth form. **This does not mean that you are committed to taking these subjects, nor does it necessarily mean that the subjects will all run.**

Using this information we will produce a blocking structure in collaboration with our partner schools (Borden and Fulston Manor). You will then have the opportunity to identify your preferred curriculum from that structure. There will be an opportunity at the start of September 2017 to explore other subject combinations if you subsequently change your mind.

Please rank your choices in order of preference and include at least 6 choices. You will be expected to study a FULL programme comprising of 4 subjects PLUS an alternative agreed enrichment route.

Your enrichment route will be discussed with you on an individual basis.

Please return to the School Office by ***Friday 2 December 2016.***
