

**Subject: Geography Pre-University (Extension Material)**

It would be beneficial to look at the University website for the course you have applied for to see if there are any particular books/journals/papers that the specific University recommends. Here you will find a list of books, journals etc that will help with your overall understanding of some basic and some not so basic principles of Physical and Geopolitical Geography

<b>Physical Geography</b>	<b>Human Geography</b>
<p>The Study Skills Handbook (Stella Cotrell)</p> <p>Effective notetaking (Fiona McPherson)</p> <p>An Introduction to Physical Geography and the Environment (Joseph Holden)</p> <p>Gaia Theory (James Lovelock)</p> <p>New Scientist (journal)</p> <p>Geography – a Very Short Introduction (Matthews &amp; Herbert)</p> <p>The Sceptical Environmentalist (Lomborg)</p> <p>Six Degrees (Mark Lynas)</p> <p>Environmental Earth Sciences (journal)</p> <p>National Geographic (journal)</p> <p>Geographical Association – publications and website</p> <p>The Guardian – Environment section</p> <p>Biodiversity: An introduction, 2nd ed.
