DESIGN A WELLBEING BACKPACK

Design a backpack or any kind of bag that you think pupils in Year 6/7 would like best and could use for school.

Design or create a wellbeing resource that you think would support a young person coming to Highsted. For example, it could be a wellbeing journal, a video about your first day, etc.

Include a 200 word description of your design. Include details such as shape, colour choice, text, imagery. Your design can be hand-drawn or paper or created digitally

Consider what information or advice would have supported you through your transition to secondary school and support your wellbeing

For example, could it be a guide that helps you understand the school day and help you create a healthy routine?

How could you make the resource informative, but eye-catching and appealing?

Could it be a video? A comic book? Be creative!

What do you do or use to support your wellbeing?
